

# APPLY TO OUR INTERNSHIP PROGRAM

Gain Experience | Build Your Network | Explore Portland

## Student Internship Program

Our internship program is structured around five focus areas designed to give you first-hand exposure to a range of topics associated with the profession. In addition, interns get the chance to visit job sites, pair with mentors, and join in all-staff events, among other activities. For more information, visit [henneberyeddy.com](http://henneberyeddy.com).

## Five Focus Areas

### 1 Design Process Participation

We want your voice! Participate in pin-ups and charrettes, and bolster your design thinking in a professional setting.

### 2 Project Team Immersion

Work on one primary project during your internship in order to gain depth of trust and experience with a supportive team.

### 3 “Lunch with an Architect” Series

Get to know designers at various stages in the profession, from new graduates working on their exams to principals leading the firm.

### 4 Committee Participation

Join one of our many committees – sustainability, graphics, Revit, and more – and contribute your skills and ideas while benefiting from more focused mentorship.

### 5 Research Project

Become the expert. You’ll research a topic at the forefront of the profession, culminating in a presentation to the office.
